

Madison College

Advanced Placement Program (AP) Equivalencies

The Advanced Placement Program (AP) is an opportunity for students who pursue college-level studies while still in high school. The program consists of college-level courses that high schools can choose to offer and a corresponding exam. When students register for an AP exam, they will have the option to submit their exam score to Madison College for evaluation. Once Madison College receives the official score report, credit will be awarded to those that meet the minimum score required.

The awarding of AP credit varies by institution. If you intend to transfer to another college or university after Madison College, make sure to check with that institution regarding their AP policies.
