

Madison College ACCUPLACER Retest Authorization

The ACCUPLACER Assessment Test is the College's designated placement tool for certain degree and non-degree classes at Madison College. It is a computerized, un-timed test that includes several different components. Test scores are valid for a two (2) year period.

Each component is \$5.00. This fee will be added to the student's financial account. Retesting in any ACCUPLACER test component will restart the clock for the period of validity.

Second, and any additional retests of an ACCUPLACER test component will require authorization from a Madison College Academic Advisor, Counselor or Faculty Advisor.

If you are authorizing a subsequent retest, please complete the information below. The student will need to present this form to the Testing Center before they are allowed to retest.
