Career Exploration and Planning

Register to attend a hands-on workshop delivered by a Career Counselor and Career Advisor (in-person or online) to start your career exploration process. madisoncollege.edu/career-employment-events

For students who are unclear about their program or career goals, walk-in assistance is available on most Tuesdays and Wednesdays (10:30am – 1:30pm) in D1624, Truax Campus.

Student Support Programs

Employment Success Program	Provides support for students in technical programs facing significant barriers to employment.
Graduation Project	Provides case management for students approaching graduation to assist with work readiness skills and specialized support.
Nontraditional Occupations	Serves students in programs in which one gender comprise less than 25% of the workforce.
WorkSmart Network	The Workforce Innovation and Opportunity Act (WIOA) provides funds for the WorkSmart Network to address the employment and training needs of eligible dislocated workers, income-eligible adults and youth.

Online Job Postings through Wisconsin TechConnect

Wisconsin TechConnect is a free job search tool to help connect students and alumni to employers recruiting for employment opportunities. A Wisconsin TechConnect account is automatically available to any student in a one or two-year technical program or associate degree technical program. Students are **strongly** encouraged to upload a resume to the site so employers can search and consider you for job opportunities.

The site also includes a miscellaneous jobs category, which does not require account creation. Miscellaneous jobs is where student help and work study positions are posted.

To access the site, go to wisconsintechconnect.com
