

MADISON COLLEGE

GPA Calculator

This GPA calculator was designed for Madison Area Technical College's grading system. **The calculations provided by this form are for personal estimate purposes only and should not be considered your official GPA at Madison Area Technical College or any other institution.** For additional information on calculating your Grade Point Average, visit the Madison College's [Grade Point Average](#) web page.

INSTRUCTIONS - HOW TO USE THE CALCULATOR

To calculate your semester GPA, divide the total credit points received for one semester by the number of credits taken that semester. Students may access their official cumulative GPA from their [myMadisonCollege](#) Student Center.

Repeated Courses - When a student repeats a class previously taken at Madison College, the highest grade received is used to calculate the student's cumulative GPA.

NOTE: Some browsers do not open this document correctly. You may need to download and save for the form to work properly.

GRADES & POINTS

Grades that count towards GPA:

Grade	A	AB	B	BC	C	D	F
Points	4.0	3.5	3.0	2.5	2.0	1.0	0.0
